Profile

I'm a Front End Web Developer. I have over 13 years' experience in the field, 5 years as a professional, employed by a top London web agency and 8 years of freelance experience, working for a variety of clients.

Contract roles

Reedpop, Brighton (remote) – June 2021–December 2021
Working in an ad-tech roll on a variety of game journalism websites using Prebid.js. Projects consisted of optimising advert display, installing new video players and installing a variety of 3rd party advertising widgets on both Python/Django and PHP driven websites.

Collective, London (remote post 2020) – June 2016–August 2017, June 2018–September 2018, February 2019–May 2019, June 2020–August 2020, February 2021, January 2022
Building a single page javascript configurator web app, the front end to an e-commerce platform and a number of promotional micro sites for a major car manufacturer, as well as working on smaller brochure and promotional style sites for other companies. Using javascript, HTML, CSS and jQuery.

Emperor, London (remote) – February 2021, April 2021
Developing javascript graphs using ZingChart and a UI for an interactive map.

The Croc, London (remote) – January 2021
Contributed to building a static website using Tailwind CSS and GreenSock animations.

Majestic Wine, Watford – November 2018–January 2019, July 2019–April 2020
Adding features to a vue.js application for in store customers and online users. Adding new javascript heavy API driven features to the website as well as additional content.

Merchant Cantos, London – June 2019
Radley Yeldar, London – November 2015–June 2016, November 2017–May 2018
Epigeum, London – April 2015–October 2015
Spork Digital, London – February 2015–March 2015
Solid State Group, London – March 2014–December 2014
Shout! Creative, Norwich – February 2014

Permanent roles

Senior Front End Web Developer, Solid State Group, London – 2008–2013
Building websites from designs and plugging in Solid State Group's Java based CMS Cookie Jar. Website and app design for clients and client pitches.
